Questions to consider for discussion at the Working Group Meeting:

1. Data:

- Current:
 - i. What are we collecting?
 - ii. What is the frequency?
 - iii. How is it currently used?
 - iv. How are we sharing access to meter data?
 - v. How do we secure meter data access?
 - vi. Who owns meter data and how is permission given to share it?
 - vii. ComEd and Ameren to present a summary in Meeting 2.
- Future:
 - i. Do we need to collect more data?
 - ii. What frequency should the data be collected?
 - iii. How should the data be used?
 - iv. How can customers better leverage data to coordinate DERs?
 - v. Who should have access to it?
 - vi. How should meter data be served within and outside of the utility to customers and third parties if granted access?
