

Agenda:
NextGrid: Utility of the Future Study
WG 4: Customer and Community Participation

Meeting No. 4

Date: June 5, 2018

Time: 1:00 - 3:30 pm

Location: Illinois Commerce Commission, 160 North LaSalle, Suite C-800
Chicago, Illinois 60601 & WebEx

Time	Agenda Item	Presenter
1:00 - 1:15 (15 minutes)	Intro, Agenda, Questions, Comments	WG4 Leader
1:15 - 1:55 (40 minutes)	Presentations	Advocate Healthcare, Charter Dura-Bar, others invited
2:00 - 3:00 (60 minutes)	Discussion: Participants and Presenters	WG4 Members, Presenters
3:00 - 3:30 (30 minutes)	Next Steps, Drafting Process	Leader, Members

The focus of the first part of the meeting is the large volume electricity customer. Potential questions for participants to consider and discuss:

- How do you anticipate using new energy technologies and DER, such as PV, energy storage, and demand response? (And where are you at this point in energy efforts in your facilities?)
- Do you have corporate/institutional sustainability goals or plans? What is the horizon?
- In the future do you expect to use greater or lesser amounts of grid-provided electricity? Do you see significant new energy efficiency or other opportunities to lower costs?
- What efforts have you made or would like to see re: reliability and resilience.
- Have you looked at microgrids? What kind of analysis would you do to evaluate such an option?
- Would you be likely to take advantage of retail energy trading of DER if it were available?
- What do you see as the optimal role for utilities, marketers, vendors and other actors in providing new and expanded services?
- What energy policies would support investment, expansion, and job creation in Illinois?
